

# COLLABORATORS

RAE is grateful to the researchers who dedicated their time, experience and wisdom to developing the articles submitted. Such voluntary work is fundamental for improving the articles, thus contributing to Administration academe in Brazil. In the period from January to December 2020, 383 scholars collaborated with RAE. Their names are listed in the page 5

We acknowledge the valuable work of the Scientific Editorial Body's members and the ad hoc reviewers and, as usual, we rated the year's best – those whose collaboration was critical for the quality of the articles published in RAE. Thirty-

seven researchers were selected based on three criteria: number of reviews, timely response to authors, and review quality.

The scientific editors participated in the blind review, follow-up and consolidation of (re)evaluation of four articles each, and they used an average 10.9 days to finish their opinions. Among the reviewers who collaborated in our blind review process in 2020, each delivered two reviews and used 29 days to finish their opinions.

Our special thanks to them all!
